

PACIFIC COAST COLLABORATIVE REPORT CARD: Sources Cited

STATEMENTS

680,000 clean energy jobs are located in California, Oregon, and Washington – 1 in 5 of all clean energy jobs in the U.S.¹

Our energy supply is clean and getting cleaner. West Coast energy systems are among the cleanest in the world. Through policies and investments in renewable energy technologies like wind and solar, renewable energy capacity has tripled since 2005.²

More than 2.8 million zero-emission vehicles are on the road in a fast-growing West Coast market. California, Oregon, and Washington account for 67% of all ZEV sales in the U.S. Over 20% of all new light-duty vehicles sold in BC in 2024 were ZEVs.³

Wasted food generates 6% of greenhouse gas emissions in the U.S. and Canada and 8% globally. PCC partners are working to cut food waste in half by 2030. Since 2019, retail partners have reduced the region's food waste by 25%—cutting the carbon footprint of unsold food by 30% and its water footprint by 37%.⁴

According to U.S. Department of Energy data, California, Oregon, and Washington have over 70,000 publicly-accessible EV charging outlets. British Columbia has over 5,000 publicly-accessible charging stations, with the network continually expanding.⁵

Together, California, Oregon, Washington, and British Columbia's low-carbon fuel programs have reduced over 360 million metric tons of greenhouse gas emissions — equivalent to taking more than 80 million passenger cars off the road for an entire year.⁶

We are transforming mobility with investments in zero-emission trucks and buses, electrified transit, and hydrogen fueling, making the PCC region a leader in clean transportation. In 2025, California, Oregon, and Washington have deployed more than 10,000 zero-emission trucks, representing one-fifth of the national total.⁷

Carbon pricing programs in California and Washington have generated over \$35 billion to date. These revenues are fueling clean transportation, climate resilience, public health projects, and investments in overburdened and Tribal communities.⁸
